ABOUT ME

My name is Yonas Kessete Kifle, born in Eritrea. I studied Bachelor's degree in Civil Engineering in Eritrea. After graduation, I worked as an engineer in Eritrea; then, I left my country and worked as an engineer in South Sudan and Angola due to political and safety issues. Finally, I migrated to the Netherlands in 2018. Now I have a five-year residence permit, which will be furthered to nationality in the end, as I already did the integration course for the Dutch language. Then I furthered my studies into a master's level in the Netherlands at Utrecht University. I recently graduated with a WO master in Environmental Science specializing in water science and management.

Hobbies

Travelling, walking, running, cycling, watching love films, listening to slow music, reading, and working.

EDUCATION

1. WO Master in Water Science and Management

Utrecht University [02/09/2019 – 31/08/2021]

Address: Heidelberglaan 8, 3584 CS Utrecht (Netherlands)

Field(s) of study: Environmental Science (Water Science and Management)

Final grade: 7.05/10

2. WO Bachelor in Civil Engineering

Eritrean Institute of Technology [01/09/2006 – 29/06/2011]

Address: Asmara (Eritrea)

Field(s) of study: Civil Engineering

Final grade: 3.3/4

TRAINING

1. HTML, CSS, Javascript, python, web developer

Matrix Master Rotterdam [14/03/2022 – 10/06/2022]

Address: Rotterdam (Netherlands)

2. Dutch Language Course (B-2)

Master Class Dutch Rotterdam [27/01/2022 – 07/04/2022]

Address: Rotterdam (Netherlands)

WORK EXPERIENCE

1. Researcher Intern

Netherlands Environmental Assessment Agency (Planbureau voor de Leefomgeving, PBL)

[22/02/2021 – 19/07/2021]

City: The Hague

Country: Netherlands

I contributed to the main project called "Future Water Challenges II" by observing "Managed Aquifer Recharge assessment over Sub-Saharan Africa under the present pressures and the future challenges" as a thesis project for culminating my Master's study.

2. Student Consultant

World Waternet Amsterdam

[01/09/2020 – 07/11/2020]

City: Amsterdam

Country: Netherlands

As part of the master's course, we did group work as a transdisciplinary case study for the World Waternet Amsterdam project. The project was about "Decreasing Water Demand via Water Conservation and Water Demand Management Measures in Nairobi, Kenya." It was a successful project full of practical recommendations to tackle the problem of water scarcity in Nairobi, Kenya.

3. Engineer, Sales and Stock manager

Every Where Angola Limitada

[10/06/2014 – 09/06/2017]
